Professional Summary

Senior Engineer | UI Architecture & Frontend Systems

Senior Architect and Engineer with 10+ years of experience building high-fidelity, accessible interfaces for enterprise global data ecosystems. Expert in bridging sophisticated backend systems with intuitive, narrative-driven frontend experiences. Proven track record of driving technical strategy, authoring comprehensive design documentation, and optimizing developer velocity within complex monorepo environments.

Skills & Expertise

- **Technical Strategy & Architecture:** Distributed Systems, Monorepo Architecture (Bazel), Event-Driven Patterns, API Design (GraphQL, Java), System Design (TDD).
- **Frontend Excellence:** React, TypeScript, Modern JavaScript (ES6+), High-Velocity Component Systems.
- **Accessibility & Governance:** WCAG 2.2 Compliance, ARIA Patterns, Focus Management, Accessibility Governance.
- **Engineering Leadership:** Cross-Functional Strategy, AI-Assisted Workflows, Technical Mentorship, Enterprise Application Lifecycle.

Professional Experience

Salesforce | **Senior Member of Technical Staff (SMTS)** | August 2021 – Present

- **System Architecture:** Architected and scaled GraphQL search with API backed course registration systems serving 100k+ users, ensuring robust performance across complex Search-Cart-Registration workflows.
- **Strategy & Governance:** Authored foundational Technical Design Documents (TDDs) for enterprise systems, enforcing architectural parity between backend data structures and frontend interfaces.
- **Platform Engineering:** Engineered Java services within a Bazel monorepo; managed hierarchical completion logic and intricate dependency structures to improve system reliability.
- **Accessibility Leadership:** Defined enterprise-wide accessibility governance for Education Cloud; implemented advanced focus management and ARIA patterns that exceed WCAG 2.2 standards.

- **Developer Velocity:** Pioneered the use of AI-assisted development workflows (Claude/Cursor) to reduce design-to-production iteration cycles and increase feature delivery 3x.

Google | Application Engineer | June 2020 – Aug 2021

- **Scalable Component Systems:** Engineered foundational lead routing rules system and Lightning Web Components (LWC) for Google Cloud Marketing operations.
- **System Maintainability:** Created modular, high-velocity patterns, significantly improving the scalability of internal platform operations.
- **Global Collaboration:** Led technical initiatives across distributed engineering teams to deliver high-priority enterprise application enhancements.

Western Governors University | Salesforce Architect - Staff Engineer | May 2017 – June 2020

- **Integration Strategy:** Defined enterprise-wide event-driven architecture and integration patterns, enabling seamless synchronization of institutional data.
- **Change Management:** Directed the development of high-scale systems for enrollment operations, significantly reducing technical debt in student data pipelines.

TAB Bank | Salesforce Developer & Business Analyst | Aug 2013 – May 2017

- **Technical Implementation:** Engineered complex cross-platform banking integrations, bridging the gap between business requirements and scalable technical execution.

KEY PROJECTS & LEADERSHIP

- **The Designed Stage:** Architected a theater-themed Design System; utilized React and semantic tokens to enable system-wide re-skinning and high-fidelity interaction design.
- **Community Impact:** 10+ years of technical leadership, including coaching for RAD Women Code and guest speaking at Dreamforce and Snowforce on design and code best practices.

EDUCATION & CERTIFICATIONS

- **Bachelor of Fine Arts (Theater)** | University of Utah
- **4X Trailhead Ranger** | Platform Developer II, Salesforce
